WATER POLICY

Purpose

Apollo Tyres Limited is deeply aware that water scarcity has emerged as one of the most prominent issues faced in the world. We believe in prudent use of water in our operations to conserve the key natural resource for society and ecosystem.

Commitment

We are committed to manufacture our products and use water in an efficient manner as per our stated value of protecting the environment to create an overall positive impact on the eco-system and Alignment with Sustainable Development Goals (SDG 6, SDG 12 and SDG 13)

SDG 6-Clean Water and Sanitation

SDG 12-Responsible Consumption and production

SDG-13- Climate Action

Objectives

We will achieve our commitment by abiding:

- To integrate the water policy into our business planning, decision making and sustainability performance review at appropriate levels in line with our sustainability journey.
- To comply with all applicable National and local regulations and other requirements related to water use applicable to our geography.
- To set target on water efficiency for continual improvement and conduct regular monitoring and auditing.
- To ensure the availability of all necessary information and resources for achieving the water efficiency objectives and targets.
- To encourage water efficient design, equipment, and services to optimize water usage.
- To improve water efficiency through reducing, recycling and reuse of water in every possible way.
- To maximize waste water recycling and reuse with permissible water quality parameters to avoid any adverse impact on ecosystem.
- To involve employees at all levels to promote water conservation.
- To support the community in providing access to clean water through purified drinking water plants through CSR activities.
- To support conservation of wetland and degraded water bodies to improve ground water table through CSR activities.

We commit to communicating this policy to all our employees, those working for and on our behalf and to make it available to all interested parties on request.

K Prabhakar

Chief Mfg. Officer
